

"Khao Suay," is an art of making beautiful steamed rice. Making rice has been our profession since decades. We are an authentic Thai restaurant whose roots have come a long way from the Northern part of Thailand. Our ancestors mastered the art of steaming rice delicately. They used specially designed conical shaped bamboo baskets to steam rice after soaking the aromatic Jasmine rice for several hours in water. They were local market leaders at the time and have served rice grown from their own paddy fields to their customers'. The culinary technique has been passed on for generations amongst the family members and we are proud to have continued the tradition. We are now here in Naperville, to serve our authentic tastes.

In addition to the beautiful rice we serve, we use finest of herbs, spices, fresh meats, and vegetables to make our dishes perfect. We cater to all our customers by adjusting the spice level according to their preference.

Appetizers
